Independent Auditor's Review Report

To the Shareholders

Perfect Presentation for Commercial Services Company

(A Saudi closed Joint Stock Company)

Riyadh, Kingdom of Saudi Arabia

Introduction

We have reviewed the accompanying interim condensed statement of financial position of **Perfect Presentation for Commercial Services Company** (the "**Company**") as at March 31, 2022, and the related interim condensed statements of profit or loss and other comprehensive income, changes in equity, and cash flows for the three-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Accounting Standard 34 'Interim Financial Reporting ("IAS 34")', as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements (2410) "Review of Interim Financial Information Performed by the Independent Auditor of the Entity, as endorsed in the Kingdom of Saudi Arabia. A review of interim condensed financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34 'Interim Financial Reporting' as endorsed in the Kingdom of Saudi Arabia.

12. Risk Management of Financial Instruments

The Company's activities expose it to various financial risk, such as credit risk, liquidity risk, market price risk, currency risk, commission price risk and equity price risk.

Credit risk

Credit risk is the risk that one party will fail to discharge an obligation and cause the other party to incur a financial loss. The Company is exposed to credit risk on its trade receivables and bank balances. The Company manages credit risk in relation to contract assets and trade receivables through the credit limits for each customer and monitor the uncollected receivables continuously. Receivable balances are monitored so that the Company does not incur significant bad debts. Cash balances in the banks are maintained with high credit rating financial institutions.

The Company's maximum exposure to credit risk is limited to the carrying amount of financial assets recognized at the reporting date as summarized below:

	March 31, 2022 SR	December 31, 2021 SR
Cash and cash equivalents	22,804,155	69,459,058
Due from related parties	8,231,466	1,606,871
Contracts assets	186,892,927	192,098,326
Trade receivables	237,449,716	97,829,429
Investments at FVOCI	1,771,291	1,501,504
Other receivables	7,958,918	2,759,378
	465,108,473	365,254,566

Liquidity risk

Liquidity risk is the risk that an enterprise will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from an inability to sell a financial asset quickly at an amount close to its fair value. Liquidity risk is managed by monitoring on a regular basis that sufficient funds are available through committed credit facilities to meet any future commitments for the company.

The Company has assessed the concentration of risk in relation to its debt refinancing and has concluded that it is low. Adequate access to funding sources is available, and there is a possibility to renew debts maturing within 12 months with existing lenders.

The table below summarizes the maturity of the company's undiscounted contractual obligations related to the financial obligations:

Market risk

Market price risk is the risk that value of a financial instrument will fluctuate as a result of changes in market prices, such as foreign exchange rates and interest rates, and will affect the Company's profit or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

Currency Risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. Currency risk arises when future commercial transactions and recognized assets and liabilities are denominated in a currency that's not the company currency. The Company's exposure to foreign exchange risks is primarily limited to transactions in US dollars, and the Company's management believes that its exposure to currency risks linked to the US dollar is limited because the exchange rate of the Saudi riyal is pegged to the US dollar. The fluctuation in exchange rates against foreign currencies is monitored on a continuous basis.

12. Risk Management of Financial Instruments (Continued)

Interest rate risk

Interest rate risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in interest rates prevailing in the market. The risks of changes in interest rates prevailing in the market to which the Company is exposed mainly relate to the Company's long-term loan commitments, which are linked to a floating rate. The Company manages interest rate risk by monitoring interest rates on loans and facilities linked to variable interest rates. In the event of a change in the value of the interest rates by 1%, the effect will be insignificant, increasing or decreasing the amount of financing costs.

Equity price risk

The Company's exposure to equity price risk arises from the investments acquired by the Company that are classified as investments in equity instruments listed at fair value through the statement of profit or loss and other comprehensive income. The Company has no price risk arising from investments in equity instruments, as the Company's investments are classified as investments in equity instruments carried at fair value through other comprehensive income.

13. Subsequent Events

In the Management's opinion, there are no significant subsequent events after the period ended March 31, 2022 that could have a material impact on the Company's financial position or results of operations.

14. Approval of the Financial Statements
